कार्यालय ज्ञापन/Office Memorandum

Sub: Ranking of Science Museums/Centres functioning under NCSM

The Governing Body, NCSM in its 122nd meeting held on June 20, 2019 at National Science Centre, Delhi, accorded in-principle approval to the guidelines for ranking of Science Museums/Centres functioning under NCSM, vide Agenda Item No.122.7, as per *Annexure 'A'*. It was also suggested that input from Shri G.S. Rautela, Ex-DG, NCSM & Member, GB, NCSM and feedback from stakeholders may be considered before implementation.

Annexure 'A'

Guidelines for ranking of science centres/museums functioning under NCSM

Introduction

The science centres and science museums functioning under NCSM primarily engaged in enhancing public engagement and appreciation of Science and Technology with some of the following objectives:

- To popularize science and technology for the benefit of students and the common man through science based exhibits, exhibitions and educational programmes.
- To supplement science education imparted in schools and colleges in a non-formal way and to organize various out-of-school educational activities to foster a spirit of scientific enquiry and creativity among the students.
- To develop scientific attitude and temper and to create, inculcate and sustain a general awareness amongst the people in order to promote a Culture of Science in the country.
- To collect, restore and preserve important historical objects, which represent landmarks in the development of science, technology and industry.
- To extend Catalytic Support to universities, scientific & technical institutions, museums, schools and colleges or other bodies in setting up science centres/museums and also in training of personnel for science museum profession

Presently, NCSM has 23 operative science centres/museums opened to public spread across the country. They can be broadly grouped as below:

i. National level centres

: 5 nos.

ii. Regional Level centres

: 8 nos.

iii. Sub-Regional/District level centres

: 10 nos.

These three-tier grouping is basically in terms size of the centre, no. of staff, budget, scale of operation etc. However, the objectives of the centres remain same. While looking into the footfall, revenue generation, media presence etc. it has been found that some of the centres are performing very well while some of them are lagging in some aspects. In fact, some of the science centres at RSC, SRSC level have surpassed the other national level museums in terms of footfall and revenue earning.

In order to encourage & motivate such centres and also to instil a culture of improvement, innovativeness and novelty in performance, networking and good governance, it is necessary to evaluate the activities of the Science Museums/ Science Centres on all India basis and rank them according to their overall rating on some parameters as advised by the Governing Body of NCSM in its 119th meeting held on 24.08.2018. In order to give a level playing field to all the museums/centres, the ranking are to be done separately for National, Regional and Sub-Regional/District level science centres/museums.

The parameters considered for ranking of the science centre are detailed below with weightage:

		Weightage
Sr. No.	Parameter	20%
1.	S&T deliverables	20%
2.	Visitor's Footfall	25%
3.	Revenue & Expenditure	
4.	Feedback by visitors on public amenities	10%
	Employees' Happiness Factor	5%
5	Upkeep & maintenance	5%
6. 7.	Networking with state government/ Central Government/ Public Sector Undertaking/ R&D and like-minded organizations in maximizing the output of the Centre	5%
	Implementation of Government Policies	5%
8.	Implementation of dovernments	5%
9.	Social Media presence Total	100%

All the centres will be asked to submit the filled up performa (attached at Annexure-I) at the end of the every Financial year. The parameters have been further detailed with items having both qualitative and quantitative output.

Name	of	the	Science	Museum/	Centre:	***************************************
------	----	-----	---------	---------	---------	---
